Checklist of the results of attachment request and inspection of the location zone 1 of Mashhad municipality

1 st column	2 nd column
Questions that have to be answered by the society representative	Questions that have to be answered by the declarer
Section 1: request	Sufficiency (actions performed in the society): based on the final judgment of the declaring expert
<p>1. Please describe how the development community and its terse .</p> <p>Khorasan Razavi Province, due to certain geographic locations , economic, social and vehicles in the country has the highest traffic of more than 15 million passengers annually , and the other neighboring countries, Afghanistan, Turkmenistan and transit times, traveling from the subject also add to the traffic accidents and increase throughput. The municipality is now one of three management areas, totaling 1,600 hectares and an estimated population of about 200 thousand people. Urban roads area close to the area of 400 thousand square meters, which is considered one of the five major metropolitan areas. The combined population of about 48,000 people in District 1 , District 2 and District 3 , about 60,000 people , about 62,000 people.</p>	<p style="text-align: center;">Are the explanations enough?</p> <p style="text-align: center;"><input checked="" type="checkbox"/> yes</p> <p style="text-align: center;"><input type="checkbox"/> No</p> <p style="text-align: center;">If not, what deficiency(s) exist?</p>

<p>This zone is geographically located in the downtown core logic plays an important role in linking other. The total green area of 700 thousand square meters, which is one of over 260 thousand square meters that make up the park. 1 The delegation visited the municipality Abkooh Safe Community, March 91, is also analyzed. Destructed tissues, including areas in which the project is being renovated and restored.</p> <p>01.02. Optionally, you can describe the objectives and activities. Safety of the community should be more than the average level for the relevant country or region.</p>	
<p>2.1. Describe the society's willing and purposes. The safety level of the society has to be higher than the average level for a society in the related country or region.</p> <p>According to the confirmation of the 20-year sight of Mashhad in 1383, the subject of health and safety in Mashhad as the moral capital of Iran accepting more than 15 million travelers per year is especially important. This is important as the size and the strategies based on six indicators of strategic security, as is appropriate. In this respect, the Mashhad Municipality Zone 1 Zone 1 City Council Youth Advisory big step for the active participation of the people, especially the young, creative active members of society removed. Create standard pedestrian passageways and stairs Mechanized pedestrian bridges,</p>	<p>Are the explanations enough?</p> <p><input type="checkbox"/> yes</p> <p><input type="checkbox"/> No</p> <p>If not, what deficiency(s) exist?</p>

<p>streets and thoroughfares geometric correction of the car, holding community meetings to learn about safety and first aid, some of the important activities of the municipality are: 1. Council's approach to creating spaces that play a role in the sport locally freshness and vitality of the neighborhood and community. The plan allows reduction of accidents.</p>	
<p>3.1. How are the mayor and the executive committee involved in the program? Who is responsible for the inter-sector manager?</p> <p>According to the confirmation of the commands of the policy-making committee of Mashhad municipality's safe society, Mashhad's mayor would be totally responsible as the vise-mayor of Mashhad. The mayor of zone 1 (where the vise-mayor pilot scheme is the administrator. The manager inter-sector group is the representative of the central municipality and the member of the leadership committee.</p>	<p>Are the explanations enough?</p> <p>Is the mayor involved?</p> <p><input type="checkbox"/> yes</p> <p><input type="checkbox"/> No</p> <p>Is the executive committee involved?</p> <p><input type="checkbox"/> yes</p> <p><input type="checkbox"/> No</p> <p>Who is the inter-group chairman?</p>
<p>4.1. Explain risks and their prediction.</p> <p>The risks prioritized for follow-up include:</p> <ul style="list-style-type: none"> Increased number of addicted people, especially ice over the previous year and lowered addiction age 	<p>Are the risks and their prediction in the society sufficiently defined?</p> <p><input type="checkbox"/> yes</p>

- People's lower purchase power over the previous year to provide their initial needs and consequently the lack of appropriate/on-time treatment that leads to malfunctions.
- Increased number of divorces over the previous year and also increased average age of marriage for boys and girls
- Increased number of people without families
- The existence of legal limitations for information exchange in relation to damages to homogenize and extract the statistics that leads to the lack of clarification of the cause of incident and consequently lack of appropriate scientific investigation of the priorities and budget allocation to solve them.
- The existence of diverse ideas such as destiny-follow, knowing the victim as the cause of incident that is an important factor in the lack of people's participation.
- Low interest of the public for various reasons such as lack of law, lack of proper/accurate implementation of regulation related to safety improvement and incidents prevention, lack of people's knowledge about their citizenship rights of safety issues in all fairs, need to increase the execution support necessary for following-up the safety requests and prevention of incidents
- Low knowledge of various levels of people and

No

If not, what deficiency(s) exist?

<p>governors about the identification of the cause of incident and prevention methods</p>	
<p>Section 2. Explain the society's structure.</p> <p>2. In Mashhad municipality zone 1, there are more than 50000 families with a population more than 170000 people. The age group of 15-30 years constitutes the biggest population group (around 37%), the age group of 0-15 years constitutes about 23% of the population and the age group of 70-50 years is about 12%. The marriage to divorce ratio is around 4.4%.</p> <p>According to the decreased population growth and oldness of the society as well as lower marriage to divorce ratio besides higher addiction statistics, it is necessary to take appropriate solutions to make the elderly people safer, advice and make proper procedures to increase the rate of marriage and decrease the rate of divorce as well as to plan to stop/decrease the youth's willing to use drugs in a more serious/definite manner.</p>	<p>Are the different population structures and risks explained sufficiently?</p> <p><input type="checkbox"/> yes</p> <p><input type="checkbox"/> No</p> <p>If not, what deficiency(s) exist?</p>
<p>2.2. Describe the current status of improving the safety procedures and prevention of damage and its progress programs in the future.</p> <p>??????????????????</p>	<p>Is the current situation of "safety improvement and prevention of damage" explained well?</p> <p><input type="checkbox"/> yes</p> <p><input type="checkbox"/> No</p>

	<p>If not, what deficiency(s) exist?</p> <p>Are the future progress plans dependable?</p> <p><input type="checkbox"/> yes</p> <p><input type="checkbox"/> No</p> <p>If not, what deficiency(s) exist?</p>
--	---

<p>3.2-????????????????</p>	
------------------------------------	--

<p>4.2-4.2-Explain strategic developing plans in relation to "promote safety and prevent injury."?</p> <ul style="list-style-type: none"> • Identification of factors and parameters that are involved in promoting safety and injury prevention. • Collects statistical information that is necessary to plan and prioritize the programs. • Inform and sensitizing the public about maintain the primary safety and request of the appropriate authority. • Public-private raising contribution for different groups of people for scientific , financial, educational, contribution and ... • Interaction and understanding with IRIB in order to institutionalize safe community subject and offer awareness and relevant news. • Interaction and understanding of all relevant organizations in order to exchange information about accidents and injuries, for the integration of statistical information and exchange data from participating 	<p>Are the Comments adequate?</p> <p>Yes</p> <p>NO</p> <p>If no, what defects there are?</p>
---	--

<p>organizations.</p>	
<p>5.2-which part of the political organization are responsible for Responsibility of the Program,? The crisis management of central Mashhad Municipality, from the perspective of urban management are supervisors and responsible for the implementation of the program. Governor as the highest political authority that participates in policy council meetings is also responsible for implementing the plan.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>6.2 - The program is directed in which part of the executive organization? in coordination with the safe community secretariat, a program may be plan in any of the three groups of policy making or the project steering committee and working groups and this plan, approved by the authorities. However, secretariat will conduct all programs which is driven directly by the municipality.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>7.2 - Is this program a permanent or merely a term project? This project is a pilot program involving a large number of projects that are often long and repetitive, which is implemented in Region 1. In addition, it is an ongoing plan that respectable authorities want. First of all negotiations and deals was based on developing designs in other urban areas and in the next phase, cities, provinces and neighboring countries is also considered while improving the safety awareness and public demand don't have a fixed index and therefore could not be cross sectional. Also, this year's budget is supported by the Mayor of Mashhad dedicated to developing designs of the project.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>8.2 – Do the political objectives, covering the whole of the society? which goals? The question is not very clear. However, the political goals are improving the safety of citizens and prevent accidents that every politician can take advantage and provide safety services to citizens and increasing social acceptability of previously acquired.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>9.2 - Who sets the goals?</p>	<p>Are the Comments adequate?</p>

<p>According to the above answer, of course, programs, ideas and advice affected by government officials or politicians. Mechanism of national priorities described among the 7 indicators goals, urban priorities Strategic Council and regional priorities minimalist approach. While the project experts and consultants had an effective role to provide scientific advice.</p>	<p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>10.2- Evaluate the purposes and results are reported to whom?</p> <p>All major and minor purposes of the project with respect to the items requested, on behalf of the World of safe community Network and taking the seven indicators after compiling in safe Secretariat approve by the Steering Committee members. The scheduled targets initially documented by experts of the Secretariat and elected representatives of the Steering Committee and then, will be evaluated by representatives, experts and elected municipal assessor and Steering Committee. The result will presented to the Policy Council and Governor and in Steering Committee to the Mayor and in municipality of region 1 to the mayor of region 1.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>11.2- Did the economic evaluation use in this program ? If yes, how they were used?</p> <p>Economic evaluations, are one of the most influential and important factors in justify and encourage the people and responsibility that will help and support in all aspects of community safety projects. Therefore, issues elected and then, were assessed by financial and statistical experts. We want to know how with the cost of A Toman and B on the time required for training projects, we can prevent E Toman of compensation and F fatality in one day.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>12.2- Whether economic incentives were used to increase safety?</p> <p>Economic incentives, is one of the very effective methods to encourage the community to enhance the Safety. According to this new plan, in Mashhad and low budget experts, this has not been implemented at the macro level. But on some level of the rules by awarding prizes and gifts and also, in some construction, trying to encourage students and construction workers to promote safety.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>

<p>13.2 - are there local regulations to promote safety? If so, give details?</p> <p>There are some effective local regulations. But with using of expert opinion we should develop new laws and amend some laws to focus on targeted support in the executive.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>3.Describe the main tasks associated with index 1.</p> <p>1- The organization and structure and intersectoral groups responsible for managing, coordinating and planning that describe safety promotion and injury prevention programs and support team.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>1.3 at what level the head of the group and its members operate? At what level head support group and its members are active? Describe how to cooperate, directors of local health departments in promoting safety and preventing damage?</p> <p>In level 1, the organization composed of 8 specialty team. in this working Group, issues of high priority be introduced and discussed.</p> <p>In level 2, we have the 32-member steering committee. The composition of the Steering Committee, including expert representatives of all state organs. And in this committee declare final consideration in legislation and budget issue for refer to the Council for final approval policy.</p> <p>In level 3 we have Policy Council. This committee with 31 members will decide in connection with, the bills received from the Steering Committee.the coordinator and supporter ring of this 2 group is the secretary of the safe society of Mashhad. Beside the exchange of management information between the members of the organizing, hold all inter-agency and intersectoral meetings. Head of the Department, is active in the level steering committee.in attention to the holding of the meeting and the correspondence with several local activities</p> <p>I hope to motivate and engage much more space, including all available potentials like financial, scientific, consulting, information, training and ... We seek to better advantage.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>

<p>2.3 - how non-governmental organizations, the Red Crescent, pension institutions, sports organizations, schools, PTA involve in "promoting" safe and prevent injuries?</p> <p>Currently, the Red Cross, Department of Physical Education, are members of the Steering Committee and Policy Council can express their questions and addressing barriers directly and pursue the matter in committee. Other NGOs are also able to register and requests their issues in a safe community of the Secretariat and the Project Steering Committee and Working Group. In terms of priorities the proposed request will be dealt with. Safe Community Mashhad Site, (shahreiman.ir), ready to record all the issues, events of people and organizations.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>3.3 - Do a system for informing citizens about the environmental hazards and hazardous conditions exist?</p> <ul style="list-style-type: none"> • (paper) through brochures, flyers, booklets and ... • Radio and television interviews from the teaser, news ... • (Internet) through the secure website of Mashhad • presence of conferences and seminars, professional meetings attended by experts 	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>4.3-Describe how work is organized as a continuing imperative?</p> <ul style="list-style-type: none"> • the plan or issue in every group, the Steering Committee, the Policy Council or by any person or entity in any way is registered with the Secretariat. • Due to importance of the issue, turn design, will be announced. • Subject review in working groups or committees. • If the bill is approved by the Committee, shall be submitted to Council for approval. In the absence of confirmation by the Committee mentioned defects, subject to further review, is adjourned to the next meeting or referred to relevant professional groups. • After approval by the Policy Council, the bill will send to Secretariat for registration and notification. 	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>Section 4: Describe the key steps associated with index 2 1 -Describe ongoing work to "promote safety and prevent</p>	<p>Are the Comments adequate?</p>

<p>injuries," at length in the following areas. specify, how the different parts of the NGOs are involved?</p> <p>Due to the importance of safety training in the creation of more secure, it is noted that all the working groups that formed a committee and have safety training working take part in this direction.</p>	<p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>1 - Transportation and Traffic Safety:</p> <p>Safety in this context, is the most significant applications of this plan which is necessary due to high number of collisions with motor vehicles or pedestrians, so Community educational Working Group and road traffic safety should have very close cooperation and interaction with urban emergency department (transport injured) police (follow-up of surgical cases.) the coroner regarding injuries, Organization of Taxi (urgent compliance events center the emergency department Contacts (making the necessary arrangements) telecommunications, municipal (leveling and fixing roads).</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>2 - Safety homes and leisure:</p> <p>After traffic accidents, domestic accidents are the second leading cause of death in our country. Home and leisure areas and residential areas are places where children and adolescents up to 15 years spend most of their time in this setting. According to statistics, about 25% of accidents involving this age group. So it is necessary to have a dedicated program in special Working Group that is composed of Representatives of the emergency fire emergency medicine, emergency social, health system Organization, the NGO Women Gas Companies, Planning Department, Health Center, Insurance, Physical Education, Education</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>3 - Child safety:</p> <p>Many Parameters notes interest to this age group:</p> <ul style="list-style-type: none"> • the vulnerability of children, than age greater. And that about 15% of accidents occur until the age of 10 years. • Care and support for children of all ages are much more sensitive and difficult • At this age, the severity of the injury, may be at least slow growth may be effects on the growth of vital organs and psyche and will also cause further the scholarship arrears. 	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>

<ul style="list-style-type: none"> • Parents of sick children are negatively affected morally and influence their job. <p>Thus, in addition to specialized centers, Emergency, Welfare, Education, Physical Education and NGO counseling centers, pediatric centers and organizations are also important to have close cooperation..</p> <p>4 – Seniors Safety</p> <p>Due to the increasing aging population, that currently about 18% of the population are over 55 years old and up to 10 years, about 30% of Iran's population will be over 55 years old. Due to the high vulnerability of this age that demands high cost of treatment and duration of treatment It is necessary for rehabilitation, nursing, health financing, information on diseases related to old age ... organizations such as welfare, physical education, municipalities, broadcasting, insurance, Social Security, Safety Specialist Working Group be key members of are elderly people.</p>	
<p>5 – work Safety</p> <p>Work-related accidents and diseases, is allocated 4% of GDP and 37% of all work-related accidents is in the construction sector that 23% of them cause death. Approximately 44% of the population of Mashhad, are located in working age (25 to 55 years). Cycle active forces and production industry, and technical forces are trained and stop the release of a technical force, even temporarily, would mean the loss of industry production cycle. According to international standards, each death accident is causing the loss of 7,500 working days. also will be critical due to treatment costs and possibly disability or amputation resulting in loss of jobs and household income and expenditure. In this regard, special forces and security agencies, including the Bureau of Labor Insurance, emergency, fire, industry, mining, transportation, should work together and have an interaction</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>6 - Prevention of violence:</p> <p>Family fight and Street fight tarnish faces of the family and city. In addition to the negative impact on morale and community mental and young people, and in particular (Kids) may result in irreparable property damage and death. So it needs anger management conferences, inform the judicial and legal demands, raising the population threshold, creating joy and</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>

<p>happiness instead of sadness, providing a rationale and methods to solve social problems through the help and assistance of police and radio and television broadcasting, Welfare, physical education and municipalities.</p>	
<p>7 - Suicide Prevention Suicide is the way for a person which is sick or does not know how the next election will be in his or her path, so we helped him/her to understand more routes and try at least one new route. Social emergency, which operates under the Department of Social Welfare can work with health centers, police, and private facilities that can be sending questionnaire aware of family situation and have an effective and positive contribution. Prevent risky behavior and personal injury according to the statistics of these events is being in our program. And Welfare, Social Emergency 123 different stations are in the city if needed , to help people at minimum time. Usually these plans, are secret in family and in workplace, so we should inform to the family and colleagues about risks and symptoms of the patient, to take action in time.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>8-Disaster Preparedness and natural disasters Response Information about possible risks, preparing warning systems (automated and manual) remove the risk of accident such as replacement and strengthening flood dams, cutting down trees decaying, residential building strength against earthquake was popular to create a safe haven. Red Crescent Organization, emergency and Fire, military, military service organizations, radio and television are an active member of the Center for Health and Safety training in natural disasters.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>9 -public safety Public areas that is governed under the management of urban (Municipalities) should predict need to the strength in the face of natural disasters, health compliance, traffic congestion and air conditioning.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>10- Hospital Safety</p>	<p>Are the Comments adequate?</p>

<p>Safety in hospitals, where patients are unable to move in bed, and sometimes they are defenseless is crucial. This safety, like Compliance in terms of strength or health, healthy eating, health, transportation, patient and staff education on patient care, clean air and heating and cooling equipment are in top of the leaders demands. Medical schools and health centers, NGO, Engineering Council, Medical Council departments and partner organizations are active in this regard.</p>	<p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>11- Safety in sport Exercise done for health and well. If safety rules are ignored people injured. Information about the risks of any sport, proper training, guidance and enforcement, first aid and emergency security provisions, including financial compensation insurance for sports activities are among programs that Technical Committee members can cooperate with municipalities and Broadcasting Physical Education, Social Insurance and Emergency.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>12-safty water Water, in the form of healthy is one of the most important nutrients. In the case of non-health, would be ways of transmission disease. So the Working Group on Water and Wastewater in Mashhad has played an important role.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>13- School security The safety of school children due to their lively and playful, is important. Schoolmaster is necessary to prevent of adverse events with proper management. Mayor and Disciplinary Organization Engineering Is responsible to approve School's strengths in coping with natural disasters and earthquake. Transportation safety Is important and taxi organization is responsible for that. About nutrition, the health centers are responsible for adequate supervision. Therefore, the working group has been formed in the context of the above-mentioned organizations. Do some of these areas, other than Community institutions are governed by other levels?</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>

<p>2.4 - Describe activities associated with gender (female or male) and different age groups and exposure to environments and situations. Describe all activities (such as preventing falls), and how to do them?</p> <p>According to regional situation, 8 approved Working Group were chosen so as to cover all ages and both sexes. For example, in the Education Task Force on School Safety covered both boys and girls from childhood to adolescence in kindergartens and primary and secondary schools are trained. In Work groups of education, and safety of work environments again, both men and women of all ages have been considered. Safety workgroups in Residential Environments which often are housewives and children in it, is important. To start issue first, the topic of the project proposed and declare to the Secretariat (in any form) by the experts of the Secretariat, reflect to the heads of the working groups, and in the meeting, it is priorities and make decision. Expert in Working Groups discuss about issue, and finally produced a bill for presentation to the Steering Committee and is delivered to the Secretariat. Bills , after the master of its provisions, and final approval of the Steering Committee shall be submitted for approval to the Policy Council.</p> <p>Are the Comments adequate? Yes No If no, what defects there are ?</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>Section 5</p> <p>1.5-Describe current tasks associated with index 3</p> <p>1 - identify all high-risk groups and explain actions taken to improve safety.</p> <p>Most at-risk groups include:</p> <p>1 - Indigenous Peoples</p> <p>Advertising and notification as: brochures, billboards, CD or local conferences about General safety at work, home, leisure and sport, mosques and malls, national celebrations (Fireworks Wednesday)</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>2 - low-income</p> <p>Advertising and notification as: brochures, CDs and local conferences, about healthy eating, recreation, risky behavior, strength building, residential or commercial spaces for sport in</p>	<p>Are the Comments adequate?</p> <p>Yes</p>

<p>the community, the establishment of a social emergency</p>	<p>No</p> <p>If no, what defects there are?</p>
<p>3 - minorities within a society, including the workplace Among the minority of a population, are disabled or blind, however that may be employed in a workplace. Tendency to be safe of this people on the streets and sidewalks, providing facilities, recreation and sports, to inform the public about protection and assistance of them.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>4 - Who's at risk for unintentional injuries as victims of crime and self-defeating Prevention of risky behavior and personal injury according to the statistics of the events are in the program. And with the assistance of welfare organization, Social Emergency 123 are in different stations of city to help the people in minimum time. Usually these plans, are secret in family and in workplace, so we should inform to the family and colleagues about risks and symptoms of the patient, to take action in time.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>5 - women, men and children that being abused Women and children abuse more than other, and the children at an early age are exploited for labor. However, in this context, the welfare organization, social insurance office work, forensics, police, judiciary could help and solve the problem.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>6 - People with mental illness, mental retardation or other developmental disabilities Usually they are kept in rehabilitation centers or at home. Informing to the parents about important parameters of cheap and simple ways of empowering children and keeping them at home, is best way to help these people. Encourage donors and charities to donate to this family, in order to meet the needs of these people is our most important plan. Of the most effective activities are holding classes for young couples about marriage counseling and testing to prevent from birth of children with disabilities or mental retardation. In this regard, the Center for</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>

<p>Health and State Welfare Organization, television, press, Physical Education Department, and NGO can effectively help.</p>	
<p>7 - People participating in sports and unsafe recreations awareness and education about sports and safe recreations is on the agenda in the youth. These types of events are most common in communities with weak financial strength. Replacing safe and healthy and low cost sport and recreation are on the agenda. Active members of this committee, physical education (especially staff of cycling, motorcycling, car racing), municipalities, and NGO's, is the headquarters for leisure.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>8-Homeless These people are the most vulnerable segments of society. Low financial power to supply initial needs in life, poor nutrition, unhealthy and unsafe recreation, a variety of illness that can be transmitted in different ways, and especially insects and living in the contaminated environment, low ability in treatment cause this group to be very vulnerable. NGO and governmental and private agencies with the cooperation of municipalities and housing authorities, quarantine them from the municipal environmental and protect them from animals. although , State Welfare Organization and health activists are involved in this plans</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>9- Individuals susceptible to damage caused by natural disasters These people have low income too and living in such areas. Information about possible risks, preparing warning systems (automated and manual) to eliminate the possibility of an accident, such as widening flood dams strength, cutting down decaying trees, residential building strength against earthquakes, and equip them to create a safe haven, training people and rescue personnel and equip them with safe prediction centers, are the main program that is in progress. Crescent organization, Crisis Management, Emergency and Fire, Military and Armed Forces Radio and Television, as well as Health Center and Safety Education Committee are active members against natural disasters.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>10- Individuals living or working near hazardous environments (such as a road or a particular intersection or where there is risk of flooding)</p>	<p>Are the Comments adequate?</p> <p>Yes</p>

<p>These people have low income too and living in such areas. Information about possible risks, preparing warning systems (automated and manual) to eliminate the possibility of an accident, such as widening flood dams strength, cutting down decaying trees, residential building strength against earthquakes, and equip them to create a safe haven, training people and rescue personnel and equip them with safe prediction centers, are the main program that is in progress. Red Crescent Organization, EMS and the fire department, the military and armed forces and the media as well as Health Center and Safety Education Committee are active members against natural disasters.</p>	<p>No</p> <p>If no, what defects there are?</p>
<p>11- High risk persons because of certain tendencies of religious, racial or sexual</p> <p>Specialized research done to identify the specific areas with risk properties. These risks may result from the extremist ideology of nationalism, religion, race, sexual.. The Special expert, police, social emergencies, emergency, the Emergency Response medical, radio and television and education can work in this area. Holding joint conferences debate, with representatives of each group and unambiguous and unequivocal legislation is effective meetings can contribute resolve religious questions.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>.2.5-Bring examples of risky environments.</p> <p>Play equipment for children in parks, bridges over streams of water, which is constructed of non-standard which cause easily trapped and causing fractures of joints, ankles and services of schools with the foresight services, the lack of pedestrian underpasses or bridges in roads and construction of the car along stream and river.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>1-Describe how to identify risky areas.</p> <p>With review the data about events and injuries that have been reported from various sources (e.g., hospitals, emergency medical, legal, etc.)</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>2-Prioritized groups under No. 1.5 and describe your issue</p>	<p>Are the Comments adequate?</p>

<p>in risky environments under number 1.2.5 These 2 groups are from low income and weak groups that work or drive in this areas. These group have a lot of accidents so must be paid to them.</p>	Yes No If no, what defects there are?
<p>3- There are certain programs to improve the health of the community? Yes there is. But the important thing is that The parameters involved in the program should be appropriate to the circumstances of time, place, economic, technological, political, religious, administrative and financial and designed by experts familiar with the situation.</p>	Are the Comments adequate? Yes No If no, what defects there are?
<p>4-Describe the schedule of activities. Schedule plans, Table that remind us the program objectives. It tells us what are the priority activities and these activities will be done by whom, by what means and at what time.</p>	Are the Comments adequate? Yes No If no, what defects there are?
<p>5- Explain how to engaging groups in prevention programs. Two groups shall be within in accident prevention programs and activities. The first group is of experts and representatives who requested with Secretariat of secure society to Join and are presented from non-governmental organizations and government agencies. The second group are ordinary people who with their creative and scientific advice in any way possible (Web, phone, fax, mail, in person, etc.), advance the program with lower costs and greater efficiency.</p>	Are the Comments adequate? Yes No If no, what defects there are?
<p>Section 6. Describe the main tasks associated with index 4. 1.6- Describe which of evidence-based strategies for age groups and environments have been prioritized? Strategies, identify high-risk groups ranged in age 15 years show this group are at greatest events like fall-related injuries, drowning, burns and poisoning. Therefore, the Committee of education and school safety committee and safety training,</p>	Are the Comments adequate? Yes No If no, what defects there are?

<p>entertainment, sporting and leisure compose to investigate these issues. From the perspective of environment, most accidents occur in construction sites. And so, with the Education Committee of workplaces this issue will review.</p>	
<p>2.6-has been communicated with the (evidence-based strategies to support safe communities affiliated centers), (World Health Organization Collaborating Centre on Community Safety Promotion) or other institutions? By which one?</p> <p>with representative of Iran's Safe Community Network (Mr. doctor Mohammadi)</p> <ul style="list-style-type: none"> •with International Institute of Health, Professor Samiei • with Council of Tehran Safe Community Policy 	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>Section 7. Describe the main tasks related to index 5.</p> <p>1.7- Local data is essential for effective prevention of damage . Recording of injuries can be done in hospitals, health centers, dentists, schools, aged care centers and local police. Additionally, you can use of reviews and house to house question of home about injuries to collect data about hazardous environments and situations.</p> <p>What methods are used to collect the data?</p> <p>These data can be used to encourage and engage different groups of people in different forms (verbal, written, email, fax, telephone, questionnaires, etc.).</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>2.7- How to present data to improve safety and prevent injuries in community?</p> <p>Based on the agreement and signing of them that with the support of political organizations (local government) and civil administration (municipality) barriers have been overcome to some extent. These data will be placed in a safe community secretariat. These data can be used to encourage and engage different groups of people in different forms (verbal, written, email, fax, telephone, questionnaires, etc.).</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>3.7- explain how we can use the documentation and the use of knowledge about the causes of injury, groups at risk and risky environments to improve them gradually?</p> <ul style="list-style-type: none"> • With the use of experts , documentation is selected 	<p>Are the Comments adequate?</p> <p>Yes</p>

<p>and collected about the current state of community, especially the Committee 8 categories.</p> <ul style="list-style-type: none"> • All meetings, debates and current issues that eventually led to the passage of Bills in working group recorded in the archives of the Secretariat and its summary report will be officially announced on the website. • in Notification site, several issues various topics like e causes of accidents and injuries, guidelines will review. • According to the understanding of public relations of Municipal and the media, holding regular meetings with the experts and provide the latest news and achievements is in plan to inform the public. 	<p>No</p> <p>If no, what defects there are?</p>
<p>Section 8: Describe the key steps related to index 6</p> <p>1.8-Analysis the results obtained from the Injury registry ?</p> <p>Which is functioning properly and has given good results?</p> <p>Which plans are to continue working? Which parts needs to change?</p> <p>Base on developed and designed program ,software is designed to integrate information on accidents and injuries recorded. In this system with the use of aggregate information quickly and accurately information can be extracted from the system. With the analysis of these results, most of the events that lead to property damage and death can be prevented.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>2.8-explain how we can use the documentation and the use of knowledge about the causes of injury, groups at risk and risky environments to improve them gradually?</p> <ul style="list-style-type: none"> • With the use of experts , documentation is selected and collected about the current state of community, especially the Committee 8 categories. • All meetings, debates and current issues that eventually led to the passage of Bills in working group recorded in the archives of the Secretariat and its summary report will be officially announced on the website. • in Notification site, several issues various topics like e causes of accidents and injuries, guidelines will review. • According to the understanding of public relations of 	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>

<p>Municipal and the media, holding regular meetings with the experts and provide the latest news and achievements is in plan to inform the public.</p>	
<p>3.8- Explain how to use the results of the evaluation?</p> <ul style="list-style-type: none"> • transparently assesse development and implementation process. • identify, whether the program you are planning is done or not? • Who and how much have benefited from this program? • identify the strengths and weaknesses of the program • Design and analysis of current conditions and the time 	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>4.8- explain the trends of changes in injury patterns, attitudes, behaviors and knowledge of the risks of injury?</p> <p>Along with modern society, technological changes may cause actual and potential hazards. The lack of familiarity with them, and with the creation of strategies to prevent the damage of them, may be far irremediable, like harmful wave of mobiles or Telecom Towers, increase in vehicle speed, inappropriate safe passages, the prevention of accidents, access faster, easier and cheaper to produce narcotics in the underground places, access to making information cheaper to produce narcotics on the Internet, damages caused by changes in the concentration of nutrients or hormones have been synthesized by using chemical techniques. Allocation low time to children duo to high employment and compensate costs of lives leading to a lack of proper training and no teaching of life skills to children,so these ethical problems, Provides delinquency to the community.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>Section 9. Describe the main tasks associated with index 7</p> <p>1.9-Describe how to join and work in the community in Healthy Community national and international networks?</p> <p>Due to the success of the Mayor of Mashhad, the special fund for the implementation of safe community, safe community secretariat meanwhile growth in national and international seminars and conferences, Coordination necessary to enable the selected experts to gain experience and encourage the application is located in programs.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>2.9-did provide an international conference or seminar or</p>	<p>Are the Comments adequate?</p>

<p>meeting to discuss national and international celebration of the accession?</p> <p>We hope, in celebration of the accession by holding meetings to discuss, and give thanks for the effective implementation of the project activists, this ceremony to be held in Mashhad both nationally and internationally. Also hope, in agreement with the proposal of Mashhad Municipality, one day in a year determine as safety community day.</p>	<p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>3.9. Which one of the pre-accession societies has been invited to join the celebration?</p> <p>All the Tehran area (22 districts) Bardaskan ,Kashmar and safe communities of other various Iranian cities will be invited.</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>4.9.??????????????????</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>
<p>5.9.????????????????????????????????</p>	<p>Are the Comments adequate?</p> <p>Yes</p> <p>No</p> <p>If no, what defects there are?</p>

Mr. Noorin Moghaddam
Mayor of Mashhad Municipality Zone 1
