

Prospect of Neihu Safe Community

Reporter: Mr. Yu-Lin Liao

Chairman of Neihu Community Safety
and Health Promotion Association

Outline

- I. Continuous promotion in six safety subjects**
- II. Safety measures in six working groups affected by COVID-19**
- III. Passing the 4th ISC designation**
- IV. Continue to be the ISC network member to share development experiences**

I. Continuous promotion in six safety subjects

1. Home Safety Promotion Committee

- (1) Training visit volunteers: assisting the elderly over 65 years old living alone and households with preschool children. The household inspections/improvement and safety advocacy can benefit them for safety.
- (2) Conducting a series of activities to promote the safety of senior people: improve their home environment, enhance the safety awareness to achieve the goal of aging in community .
- (3) Combining industrial resources: providing close care for the disadvantaged elders.
- (4) Encouraging community people and enterprises to actively participate in the promotion of disaster prevention knowledge in the district.
- (5) Encouraging more residents to receive designated disaster relief volunteer training, especially the slope community, to prepare for disaster reduction in peacetime, and to enhance the "response during disaster" and "post-disaster recovery" capabilities.

I. Continuous promotion in six safety subjects (cont.)

2. Transport Safety Promotion Committee

- (1) Continue to promote the road users' safety behavior, and strengthen the knowing of right-of-way.
- (2) Continue to promote "drinking without driving, driving without drinking" to ensure the safety of people's lives.
- (3) Excavate and assist in improving the road environment in the area.

3. School Safety Promotion Committee

Through the principal's forum, we will continue to promote cross-school cooperation among schools to build a safety network for schools in the region.

I. Continuous promotion in six safety subjects (cont.)

4. Work & Shopping Place Safety Promotion Committee

Expand the project scope from hypermarkets to night markets and traditional markets.

5. Sport and Leisure Safety Committee

- (1) Collect pre-exercise warm-ups and self-rescue related videos and slogans; broadcast through social software groups.
- (2) Design sports safety awareness tests for the public and community base groups to conduct tests and platform discussions to increase people's interest in safe sports and leisure.
- (3) Integrate public and private organizations in the area, improve the sports and leisure environment, and encourage people in Neihu District to engage in safe sports and leisure activities.

I. Continuous promotion in six safety subjects

6. Intentional Injury Prevention Committee

- (1) Increase the public's attention to self-help and mutual assistance of social safety net.
- (2) Promote the suicide prevention plan of the two large lakes in the area, and strengthen the drowning prevention in the lake surrounding and protection facilities.
- (3) In order to avoid the recurrence of random killing in the district, the prevention plan will be planned in the future.
- (4) Promote to the public:
 - The way to face and report safely when face with pressure or violence
 - The notification mechanism for caring with mental illness or when people are in urgent need of assistance.

II. Safety measures in six working groups affected by COVID-19

In response to COVID-19 raging around the world in early 2020, Taiwan's epidemic prevention has set the best results in the world's top 3 epidemic prevention. But we are never complacent about it. Facing the virus's repeated mutations is our biggest challenge in the future. We are trying to develop community epidemic prevention measures under the six safety working groups, so as to eliminate the impact of the epidemic on community safety.

II. Safety measures in six working groups affected by COVID-19

➤ Home Safety Promotion Committee

1. Promote the government's anti-epidemic policy through various social media.
2. Through school, community, and neighborhood advocacy, remind the public to pay attention when prevent the spread of epidemic prevention at home:

- (1) Electricity and gas safety issues.
- (2) Anti-skid and anti-fall safety issues.

3. Due to the impact of the epidemic, it is hard to handle courses and publicity face to face. In the future, it will be planned to adopt online promotion and pre-recorded videos, which can be placed on Facebook and YOUTUBE for people in the district to watch. If any questions, you can get the answer through private messages.

II. Safety measures in six working groups affected by COVID-19 (cont.)

➤ **Transport Safety Promotion Committee**—assisting in advocacy

We hope:

1. Try not to take public transportation, private vehicle instead.
2. Regardless of whether you take public or private transportation, you should abide by the government's epidemic prevention policy.
3. During the epidemic, restaurants were prohibited from eating, and the number of people called for food delivery increasingly. Pay attention to the safety of delivery staff will be the next mission for us.

II. Safety measures in six working groups affected by COVID-19 (cont.)

➤ **School Safety Promotion Committee**

The main focus of the Principal Forum in the future will be the discussion on measures to prevent the epidemic on campus. When students return to school, they must take into account both the epidemic prevention and the student's injury prevention. The unprecedented challenges are worthy of careful observation and experience sharing

➤ **Work & Shopping Place Safety Promotion Committee**

Invite the hypermarkets and relevant units for epidemic prevention to convene an online conference, discussing and sharing the experience of epidemic prevention.

II. Safety measures in six working groups affected by COVID-19 (cont.)

➤ Sport and Leisure Activity Safety Promotion Committee

Promote through various community groups:

1. When people are in leisure and sports, they should abide the government's anti-epidemic regulation.
2. Encourage the public to maintain physical exercise and maintain good health in accordance with government regulations.

➤ Intentional Injury Prevention Committee

Affected by the epidemic, people are facing changes in their lifestyles, such as working at home brings changes in the workplace and family interactions, employee problems, interpersonal relationship management, etc. Such changes may give rise to stress, irritability, mental problems, emotional instability, suicide etc. We will:

1. Invite relevant professional public and private departments to develop countermeasures through online meetings.
2. Through the social media and community advocacy, let people discover the way to seek for help when encounter the emotion problem or violence threat.

III. Passing the 4th ISC Designation

1. "Designation" is the "motivation" for promoting safety:

In 2021, we apply to the International Safe Community Certifying Centre for the 4th designation. It is hoped that the unique safety culture, continuous learning and spirit of striving for improvement in the Neihu safe community can drive other communities.

2. In the future, the implementation of the Neihu Safe Community Program will be through more pragmatic leadership and organization from generation to generation. We look forward to the "Neihu Safe Community" building a safer and healthier living environment for the residents and the people who travel to and fro Neihu. Let Neihu be the "Safe, well-being, and comfortable" place to live.

IV. Continue to be the ISC network member to share development experiences

1. I hope that Neihu Safe Community can pass the 4th designation, continuously being a member of the ISC network.
2. Continue to actively participate in ISC network activities, such as the South Korea ISC conference in 2022.
3. Share with network members the benefits of promoting a safe community program to life Benefits ,Also refer to the successful experience of network members, so that the promotion of safety The full promotion plan is more helpful to the community and benefits the community.

Thank You

*Neihu – Beautiful Mountain, Peaceful Water, Wonderful Place.
Safe Environment, Safe Activity, Safety Guardian.*
