## For the age group

### Children 0-14 years:

Home: Enhance young students' knowledge of home safety by visiting and touring "Xinyi Home Safety Demonstration House"

Traffic: Bicycle helmets, child car seats, visibility: Improve commute route around elementary schools; provide safety education

School: Raise young students' awareness of DV and knowledge of reporting by DV prevention play at school's morning gathering.

Sports: Enhance young students' knowledge of sports safety by educational promotion on the importance of warm-up before exercising at Sports Day.

Leisure: Inspect and improve old parks that threaten children's safety.

### Youth 15-24 years:

Home:

Enhance young adults' knowledge of home safety by visiting and touring "Xinyi Home Safety Demonstration House"

Traffic:

Inspect work roads and report to related office for improvement; provide educational promotion on traffic safety and reinforce enforcement.

Occupational:

Conduct education on shopping area safety and AED training for both consumers and shop staff.

School:

Provide assistance to Taipei Medical University to be designated as ISS; conduct experience sharing meetings.

Sports:

Provide educational promotion on sports safety; equip safety facilities in Sports Center such as AED, blood pressure monitor, first-aid box

Leisure:

Provide educational promotion on hiking safety throughout community and in schools as well; design and issue promotional posters and flyers.

### Adults 25-64 years:

Home:

Inspect and improve public space safety in condos. For example, improve lighting in underground parking.

Traffic:

Inspect and improve high-risk roads; provide educational promotion on traffic safety.

Occupational:

Conduct educational training for shop staff of Xinyi Shopping Area to raise their ability and knowledge of safety.

Sports:

Provide educational promotion on sports safety; equip safety facilities in Sports Center such as AED, blood pressure monitor, first-aid box

Leisure:

Inspect and improve hiking trails; install AES and mileage at high trails.

### **Elderly 65+ years:**

Home:

Inspect veteran dorm that has the highest rate of solitary elderly in Xinyi and provide improvements such as slippery-proof mat and lighting at night

Traffic:

Provide educational promotion on bike safety.

Sports:

Provide fall-prevention training courses for the elderly to strengthen their muscle strength and balance.

Leisure:

Inspect and improve old parks to be accessible environment.

### **Natural Disaster:**

Improve the high risk area that is delineated as “high mudslide potential zones” by central government offices with environmentally friendly improvements; establish Disaster Prevention Information System for Mountain Slopes to monitor mudslides in real time; statistics monitored including rainfall, rainfall trigger level and real-time video feed.

### **Violence prevention (intentional injuries):**

Provide education promotion on DV prevention by plays throughout the community.

### **Suicide prevention (self-inflicted injuries):**

Provide education promotion on suicide prevention by plays throughout the community; establish resources network providing counseling and referral.

### **Programs aiming at ”High risk-groups”:**

The High risk-groups are: New Immigrants, the Economically Challenged and Solitary Elderly

Program for high risk-group: Home Safety Inspection and Improvements for New Immigrants, the Economically Challenged and Solitary Elderly

**Surveillance of injuries:** Taipei Medical University Hospital

Numbers per year: **4000 cases/year in average**

Population base: **229,657**

Started year: **2008**

### **Publications:**

2010 Xinyi ISC Performance Video

2011 Xinyi ISC Calendar

2010-2014 Annual Report to TCSPC

Home safety brochures in multiple languages

Xinyi ISC promotional brochure
