The Safe Community Project of Taladkreab Sub-District Municipality

1. Street Safety

Objective : We aim to educate students and residents on self-protection against road accidents, and reduce injuries caused by traffic accidents.

6-18 Age Range : We provide knowledge and understanding of traffic law, safe driving, how to put on a helmet, and also a simulated road activity for the safe driving.

Over 19 Age Range : We intend to educate our residents to comply with the traffic obligation, safe driving, helmet wearing. Also, we have created bike lanes by drawing street lines in order to signify the traffic lanes.

Membership Network : Wat Talad School (Udom Wittaya), Udomseal Wittaya School, AP Honda Company, Taladkreab Sub-District Health Promotion Hospital, Child and Juvenile Council, Safe Thai Children Club Taladkreab Sub-District Municipality, Road Accident Victims Protection Co.,Ltd. and Bang Pa-In Police Station

2. Household Safety

- Objective : Our main purpose is to promote the safety in everyday life.
- 0-4 Age Range : We have visited young children's houses to learn their family problems.
- 5-12 Age Range : We have paid a visit to the children's houses in order to learn the problems in their families.
- 12-18 Age Range : We hold an activity to promote the knowledge about the danger of drugs and adolescent pregnancy prevention.
- Over 25 Age Range : We also have trainings to promote the knowledge about how to take care of the elderly and the disabled.
- Over 60 Age Range : Our community has organized some trainings to promote the knowledge of injury. Also, we have improved the toilet condition for the elderly.
- Membership Network : Taladkreab Sub-District Health Promotion Hospital, Taladkreab Sub-District Municipality, Health Volunteer, The Elderly Care Volunteer, Watsanawet Social Welfare Development Center for Older Persons

3. The Children's Safety

Objective: To promote the safety in everyday life

3-12 Age Range: We have launched a campaign for wearing a crash helmet at school, and wearing life jackets among students and parents to prevent them from drowning. Moreover, we held a training course to explain the basic traffic laws. Then our team has improved the playground condition for young children and made sure that the instructional materials are perfectly safe for students. In addition, we simulated safe driving conditions on the street.

13-18 Age Range : We organized a training to promote the danger of drug-taking, the adolescent pregnancy prevention , and safe driving.

Membership Network : WatTalad School(Udom Wittaya), Udomseal Wittaya School, AP Honda Company, Taladkreab Sub-District Health Promotion Hospital, Safe Thai Children Club, Taladkreab Sub-District Municipality, Road Accident Victims Protection Co.,Ltd. and Bang Pa-In Police Station

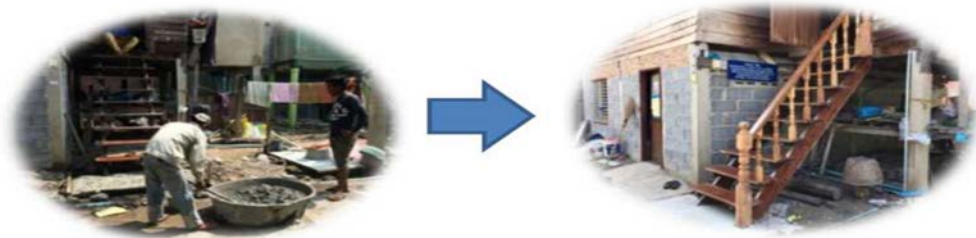

4.The Elderly's Safety

Objective : We intend to create the safe living environment for the elderly.

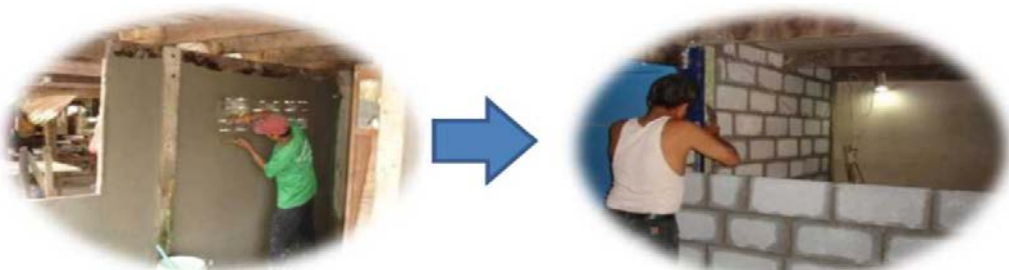

Over 61 Age Range : We have conducted a campaign to promote the risk of injury caused by a slip and improved the toilet conditions for the elderly.

Membership Network : Taladkreab Sub-District Health Promotion Hospital, Taladkreab Sub-District Municipality,Health Volunteer, The Elderly Care Volunteer, Watsanawet Social Welfare Development Center for Older Persons

- There is information release about the safe community operation for the public via several websites.

- Warning Signs in the Community

We put up some notices in order to conduct a helmet wearing campaign at the Child Development Center of Taladkreab Sub-District Municipality.

We put up warning signs saying 'Do Not Leave a Child in Car' at the Child Development Center of Taladkreab Sub-District Municipality.

We put up a sign to conduct a helmet wearing campaign in front of Taladkreab Sub-District Municipality Office.

International Commitments

1.1 The first visit to the community is aimed to certify it to be the international safe community by the Safe Community Committee.

Participation in the International Conference

- Taladkreab Sub-District Municipality was one of Thailand's provincial representatives that was selected to present an academic work in the international seminar held in South Korea. We realize the importance of safe community. In 2003, we were a primary organization that drove the campaign and co-operated with the governmental agencies, for example, the Child Safety Promotion and Injury Prevention Research Center, the Faculty of Medicine at Ramathibody Hospital, Accident Prevention and Public Danger For Strong Community Subcommittee, National Accident Commission, Department of Disaster Prevention and Mitigation and Ayutthaya Department of Disaster Prevention and Mitigation. We have been operating our task regularly until we were certified as 'a safe community' at international level, able to reach the required standard of the World Health Organization (WHO).

Participation in the International Conference

- Taladkreab Sub-District Municipality has been operating the safe community task in cooperation with the Child Safety Promotion and Injury Prevention Research Center. The World Health Organization (WHO) held the 20th International Conference on Safe Community during 6-9 September, 2011 in Sweden, and Mr. Wichai Waiyati, the Mayor of Taladkreab Sub-District Municipality, was selected by the committee to present the academic work about the result of flood prevention and solution.

- Taladkreab Sub-District Municipality took part in the International Conference on Safe Communities 2015, Nan, Thailand during 22-25 November, 2015.
