The programme covers the following safety promotion activities:
CPTED program for prevention of crime and violence (Seojeong-dong)

Pyeongtaek-si has executed the CPTED program in old multiplex villa area which is located in Seojeong-dong, 8 tongs from March 2015 to September 2016. A lot of single female residents live in this area with a condition of many alleys on the road. The major five crimes including sexual violence, robbery, violence and others have been founded consistently in this area.

To improve the situation, the city has prepared the foundation of program like surveyed the residents to determine priority of safety measure, received advices of a design director, advertised in the press, cooperated with related organizations, executed meetings with the resident committee, distributed notices and others. Several activities have been proceeded to prevent major crime such as executing safe returning home program for women, designated safeguard house, installation of CCTVs and LED security lights, photovoltaic sign, coating gas piping, installation of safety tower, door post light, and design wall. 19.1% of the five major crimes have decreased and this will be expanded in Poseung-eup and Wonpyeong-dong area as well from 2016.

Operation of the SOS Team for prevention of accidents in everyday life(from Sep 2017)

Also, Pyeongtaek-si has established a civil complaint SOS team to prevent safety hazard and resolve civil complaint through conducting safety inspection and repair demage service in advance from September 2017.

The SOS team has been repaired roads, transportation, park facilities, and other safety hazard as safety inspection in advance in a bid to prevent future safety accident. 24 civilian volunteers will be organized as a SOS volunteer group to monitor living safety and to conduct a campaign from April 2018. They will broaden their activity boundary to prevent local demage.
Traffic Safety

- Safety education and accident prevention for child pedestrians
- Control of violations of traffic rules and safe traffic guidance
