Program of Safety Promotion and Injury Intervention

I. Children Safety (0-14 years old)

1. Safety Education

Create 85 children's songs of safety and civilized passing, design 210 traffic safety signs and lay out safety sign exhibition board.

Carry out safety education activity themed as "What Should Be Paid Attention to When Visiting a Zoo".

Carry out appraisal of "Safety Stars" every month to improve children's safety awareness.

Appoint a vice principal of legal affairs to organize routine legal trainings, circulate peripheral public security situations, publicize and popularize legal knowledge.

Conduct campus emergency trainings and organize emergency evacuation drills.

2. Safety Facilities Improvement

Clamp-preventing Strips on Door Cracks Old tires on Road Edge

The activity venue indoors and outdoors have been equipped with anti-collision angles and anti-collision strips as well as anti-clamping strips have been installed at cracks between doors and frames. The stones on cement road edge in the activity venue have been replaced with junked auto tires. Tile beds have been reconstructed into wooden leisure benches with their edges and corners polished into round ones. The warm tips of “Cautions for Slipping” have been posted on building entrance.

3. Program of Campus Traffic Safety

For campus safety, it has strictly conducted the separation between people and vehicles, set the traffic marking lines such as lane, direction change, etc..

Strengthen the management of school bus pick-up and waiting sites, reconstruct school bus pick-up and waiting sites and newly built 55 school bus waiting pavilions.

Carry out the appraisal activities of “safe and civilized school buses”.

4. Program of Children’s Safety after School

Establish extramural education counseling stations and provide voluntary education counseling on holidays and at weekends for students.

5. Evidence Programs

All programmes developed and implemented as part of Safe Communities are based on proven or promising national and international evidence.

II. Youth Safety (15-24 years old)

1. Safety Education

The sub-district has established “Shengang Adolescent Social Education Research Association”, edited and freely issued adolescent social education series in eight series and 10 volumes such as “Thanksgiving Stories” and so on.

Carry out the plan on prevention of minor crime and develop legal education in school.

2. School Safety Program

Purifying Campus Surrounding Environment Plan. Police station and municipal administration squadron have strengthened force to maintain orders when school is over and patrol cars are increased on patrol around. The school frequently inspects public entertainment places, internet bars and game halls around.

The sports facilities like basketball stands have been disposed with safe soft packing.

3. Safety Program in Traffic

Carry out Safety Promotion Plan on Riding Motorcycles and strictly check illegal behaviors violating traffic laws such as not wearing crash helmets when riding motorcycles.

Conduct publicity activities of traffic safety called “Civilization Is on the Road”, post and issue over 10 thousand vehicles paste of “Five Bans” and “Civilization Is on the Road”.

Set up “Little Red Caps” civilized traffic posts to assist policemen to advise uncivilized and unsafe traffic behaviors in morning and evening rush.

4. Evidence Programs

All programmes developed and implemented as part of Safe Communities are based on proven or promising national and international evidence

III. Adults Safety (25-64 years old)

1. Working Places Safety Program

Occupational Safety and Health Training Plan. Carry out occupational safety and health training plan, urge enterprises to organize medical examination for staffs and conduct occupational hazard factors examination on production sites.

Falling prevention plan on construction site. The safety protection on construction sites shall be well done, and staffs working at heights shall wear safety helmets, safety belts and anti-slip shoes.

2. Fire Safety Program

Employees Fire Training and Drilling Plan. Organize fire safety and evacuation drills, instruct the use methods of fire extinguishers and connection of water hoses and conduct fire fighting and evacuation demonstrations and drills.

Safety Promotion Plan of Fire Extinguishers into Houses. Install automatic fire extinguishers and deploy dry powder fire extinguishers.

Establish 17 voluntary fire teams to publicize fire knowledge and put out fire in case of an emergent fire.

Build theme parks of fire safety and carry out fire safety knowledge education.

Hold fire safety sports games to popularize fire safety knowledge and skills.

3. House Safety Plan

Fuel Gas Safety Prevention Plan. Fuel gas dealers and building leaders in the communities have formed fuel gas safety management wardens and go to houses to check safety every quarter.

The sub-district has replaced flexible pipes and bayonet connectors of 1358 houses. The sub-district has invited professional employees from fuel gas companies to carry out trainings of fuel gas safety. It has printed over 10 thousand friendly reminders of fuel gas safety and issued to every house.

Residents Dog-raising Self-discipline Group Plan. To strengthen residents' dog-raising management, it has set up dog-raising self-discipline group voluntarily, made civilized dog-raising self-discipline convention, defined dog-walking area and carried out exchange activities of civilized dog-raising.

Checking Gas Safety

Electricity safety reminder

Strong Foundation Plan of Electricity Use. The sub-district has installed final leakage protectors for famers for free.

4. Water-Concerned Safety Plan

It has added warning marks and falling prevention railings at dangerous bridges, river channels and ponds. It has newly supplemented warm reminders of “No Swimming” at Chunshen Lake in Chunshen Park.

5. Evidence Programs

All programmes developed and implemented as part of Safe Communities are based on proven or promising national and international evidence
