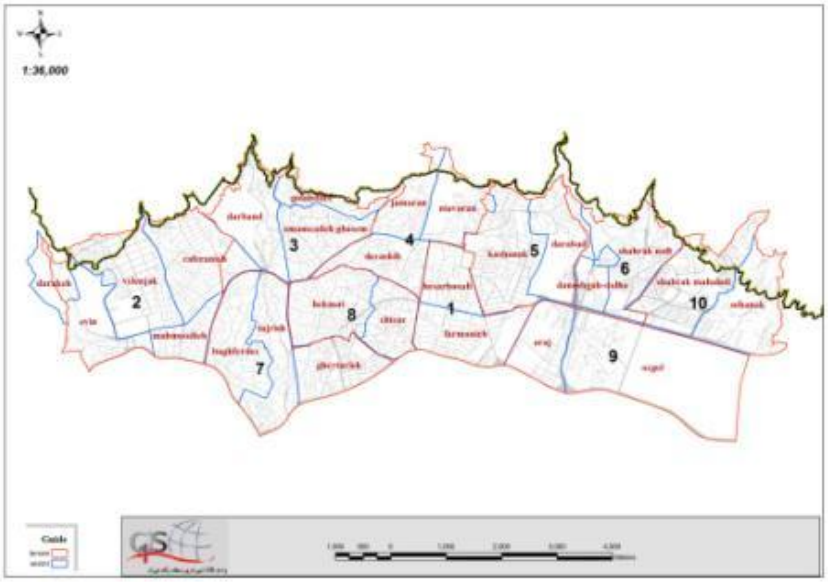
Publications	92

The Municipality of Region 1 in a Glance

Region 1 is located in the Southern slope of Alborz mountain and it is referred to semi- mountainous area of north of Tehran. The extent of urban area of this region is 64 square kilometers and its realm is about 150 square kms. This region is limited to 1800 meters elevations to southern slope of the Alborz mountains from North, to martyr Chamran highway between Azadi Hotel, Modarres Highway, Ayatollah Sadr bridge and martyr Babai from south, to lands of Darakeh River from west, and also to Estakhr Street from East. The municipality of region 1 has 10 districts and 26 parishes.



Shemiran is the most pleasant and attractive area in Tehran, especially in recent decade, is deposited much of its comfort and freshness to noise of machines and tremendous presence of citizens who run away wide-spread pollution of Tehran. In a glance, we see Shemiran like villages in the south slope of Tochal Mountain which was named Ghasran and now it is called Shemiran.

Since 100 years ago up to now, Shemiran, having promenades like Darband, Tochal, Kolakchal, Evin and Darakeh, has been one of the main re-creative areas for Tehran dwellers and having parks such as Jamshidie, Niyavaran and Qeytarieh, the number of its visitors has been increased. Now a day, a part of Shemiran is located in Region1.

Bazaar Tajrish

Tajrish Bazaar, as an ancient transaction place, is an important commercial and trade center and in spite of structural change of region1 and establishment of big stores in different areas, Tajrish Bazaar is creditable and significant, yet.

The two big art- cultural complex of sa'd Abad and Niyavaran, which were royal places previously, are belonging all citizens now and different levels of people profit by its vast art- cultural possibilities. Besides, some parts of the two large and old steets of Shariati and Vali- asr and the whole of Niyavaran Street are located in Shemiran area.

Shemiran has religious and cultural identity. Having religious places like Saleh shrine, Gasem Shrine, Ali akbar shrine, and Imam Khomeyni house in Jamaran area in years after revolution, increase the significance of Shemiran and its religious and spiritual spaces.

By having promenade specialties in region1, about 800 thousand people use re-creative possibilities by different age levels every month that this figure is about twice as much as whole population of the region. Region1 has 80 mosques, 437 schools, 142 parks and 156 private and public sport places and share of green space of region in comparison to international share (16 square meters), is 47 square meters that is a desired level.

On the basis of the last population census of Iran Statistics center in year 2006, the population of region1 is more than 410,000 people that 50.6% of it's population are men and 49.3% of it are women.

3. Collecting information and statistics, classifying and making traffic events on the basis of injuries resulting in death, injuries resulting in disability and damage injuries.

4. Determining region1 hazard points with a view to traffic injury and accident.

5. Geometric correction for the purpose of safety passages network and improving traffic condition

Table 3- The number and area of geometric correction in region1

Geometric correction	2008	2009	2010
Number	**22**	**47**	**65**
Area (1000 **square meters)**	**10.2**	**15.1**	**21.1**

Mechanized bridge at Tajrish square

Geometric correction for the purpose of safety passages network

6. Installing 5 pedestrian bridges at region1 (mechanized bridge at Tajrish square, Imam Ali High way. Golchin, Artesh Highway, Yas town ship, Daneshjoo Boulevard- Kherad Complex. Andarzgoo Boulevard- Saleh: Square, Chamran highway- Ghiyasi lane, Maghsudbeyg- khazar) and widening two bridges in martyr Babai Highway (Now there are 46 passer- by bridges in region1)

7. Preparing lights for passages, pedestrian bridges, bus, taxi and subway stations.

8. Preparing 6 suitable places for bus stations with the purpose of safety bus stations.

9. Installing video surveillance cameras and violation recording in region1 with the purpose of register reasons of traffic injuries.

Safety bus stations

Installing and inauguration subway stations of Qeytariyeh

10. Installing guard rail, palisade, traffic signs, safety and warning signs traffic lights and recognition signs in region1.

11. Performing operation of pivoted and trembling drawing lines, pedestrian block and puddle on region1 passages, especially In front of schools, hospitals with purpose of safety vulnerable segments and drivers' guide and prevention from changing direction of transport means.

Installing guard rail

Drawing lines, pedestrian bloc and puddle on region1 passages

12-Opening and inauguration of 28 region1 highways and streets

13-Safety highways' rim (Chamran and Sadr highway)

14. Improving and safety sidewalks network and preparing bike tracks to safety promotion and encourage citizens to walking and riding bicycle (side walk and bike track in Chamran and Artesh highways and Andarzgoo boulevard).

Opening and inauguration of Martyr Sayad Shirazi highway

Improving and safety sidewalks network and preparing bike tracks in Chamran highway

15. Organizing terminals for carrying passengers (martyr Afshar and Qeytarieh).
16. Installing and improving 5 stratified forms parking with capacity of 905 cars.
17. Installing two BRT platforms and installing stations, widening highway and U-turn correction.
18. Installing and inauguration two subway stations in Qeytariyeh and installing subway performing workshop in line 3.
19. Place finding and employing advisor for preparing student's traffic park in region1 to train traffic laws to students with priority for disable students.
20. Creating 'noise contamination measurement' station in region1 with the purpose of determining noise contamination measure and presenting traffic plans and 'green spaces covering' plans to reduce contaminators.
21. Making suitable passages for disables at 7 main pivots (Bahonar Street, Pourebtehaj Street, Darabad, and Oushan Boulevard, martyr Lavasani Street, Andarzgoo, Qeytariyeh and Shariati Boulevard)
22. Creating 45 ways for disables, safety 21 tips of forked and securing and 68 middle refuges to safe disables and elderly.

Making suitable passages for disables

23. Installing bridge of the same level with bus station and metal bridge in region1.
24. Equipping traffic lights by (disables guide system) in region1.
25. Installing 'disables guide' system for disables and preventing from falling motor cycle riders.

Making suitable passages for disables

26. Surveying Sidewalk of ‘Shariati street’ for disables and elderly and recognizing and eliminating dangerous factors before, during and after operation by Presence of advisor of region1 mayor in disables affairs and region1 experts of safe community steering committee, deputies of technical and construction, traffic and planning and also project contractors.

Surveying sidewalk of 'Shariati Street'

Surveying sidewalk of 'Fereshteh Street'

27. Surveying sidewalk of 'Fereshteh Street' and recognizing dangerous factors for disables by experts of technical and construction and planning deputies by presence of advisor of region1 mayor in devotees' affairs.
28. Scattering asphalt in region1 and highways (269,000 tons of asphalt)
29. Installing suitable tile for blinders in region1 sidewalks.
30. Covering open canals in region1.

Traffic and safety training at schools and kindergartens

2. **Specialized workgroup on promenades and leisure time safety especially for children and adolescents.**

- **Goal:** The purpose of this workgroup is promoting safety in parks, mountain roads and region1 sports complex by cooperating with government, non-government, people-based organizations and private sectors along five future years.
- **Members: This workgroup has 39 members**
  - The chair of specialized workgroup(region1 urban affairs and green spaces deputy)
  - The secretary of specialized workgroup (region1 head of mountain headquarter)
  - Region1 specialized deputies(social – cultural affairs and technical and construction)
  - Region1 head of environment office.
  - Head of Shemiranat environment department
  - The head of adolescents, youth and schools health office of health ministry
  - The expert of training children and adolescents
  - Region1 head of medical emergency service office
  - Region1 head of Shemiranat health center
  - Region1 head of red crescent
  - Faculty members
  - The expert of tourism management
  - The head of Shemiranat physical education office
  - Physical education experts
  - GIS expert
  - Active non-governmental organization in the field of tourism, mountain and sport
  - The representative of mountaineering board in Tehran
  - Active private sector in standardizing sport and playing set in promenade
- **Activities:**

1-Performing specialized workgroups and Holding continues meetings

Specialized workgroup on promenades and leisure time safety especially for children and adolescents.

2. Information, Education and Communication (IEC) and advocacy plan about promenade and leisure time safety especially for children and adolescents.
3. Preparing training brochures about 'special area in mountain', ' a treasure is hidden in our mountain' , 'welcome Darakeh river- valley' , ' rubbish management in Darakeh river- valley', ' why mountains are important?' 'Green mountain carpet',' mountaineering clothes and equipments', ' play- house of Evin region'.

Indicator No3- Programs that target high risk groups, environments and programs that promote safety for vulnerable groups

1. Holding continual meetings of specialized workgroup by presence of representatives of governmental, nongovernmental, people based organizations, private sectors, charity and international organizations.

Specialized workgroup of prevention from high risk behaviors and violence

2. Information, Education and Communication (IEC) and advocacy plan about prevention from high risk behaviors and violence
3. Considering existing situation of social in region1 in 5 next years on the basis of age, sex, reason, place, time, occupation, education, income rate, crime means, disability, intention and effort to suicide, death, previous mental illnesses, family problems.
4. Preparing a collection of brochures related to prevention from behaviors and violence by names of" anger control' , ' violence', 'social violence', ' domestic violence,' violence against himself', ' high risk behaviors', ' unsafe sexual behaviors', ' confederate to prevent from the spread of AIDS, ' physical activities', ' nutrition', 'injuries and accidents', ' let's forget the cigarette',' drugs, addiction psychotropic' , social injuries', 'violence against women' and ' alcohol and complication of alcohol'.
5. Printing and distributing 15000 booklets in March of 2010 about prevention from high- risk behaviors.
6. Holding educational courses and workshops about prevention from hazardous behaviors in schools, mosques, and public places in region1 by names of 'life skills', 'high risk and protective factor to alcohol', 'ways of coping with anxiety',' children's rights defense',' fighting with narcotic drugs', 'abnormality of computer games', and; school and family: a beginning for a meander way', social emergency call (123)

ding educational courses and shops about prevention from hazardous behaviors

ing educational courses and hops about prevention from hazardous behaviors

7. Holding different conferences:
   - The police
   - Emotions' in purpose of supporting labor and street children rights.
   - Acquaintance and prevention from over using of drugs in occasion of international day of coping with drugs.
   - The role of people based organization in social injuries and harm reduction and prevention of suicide.
8. Online counseling in order to reduce high risk behaviors, reduce depression, mental disorders and prevention of suicide.
9. Holding addiction group therapy in parks and other public places.
10. Establishment of 15 fixed health house and mobile teams for counseling in parks, joy and happy stations.
11. Identifying and caring of the victims, especially women, young girls, children and elderly.
12. Identifying and collecting labor and street children, beggars, homelessness, sex workers, addicted persons form region1 and referring them to related centers.
13. Holding happy occasion of transition to the new year 2009 at ' Quddousi' welfare center and ' Reyhaneh' disabled girls welfare center and holding breakfast occasion in wild life museum of 'Dar Abad' for orphan children of welfare and Imam committee.

Holding happy occasion of transition to the New Year 2009 at ' Quddousi' welfare center

Holding happy occasion of transition to the New Year 2009 (making Haft seen statue in Tajrish sq.)

14. Free check up of women in occasion of national day of' women health'
15. Performing the plan of region-based meetings and familiarizing operational forces in regions about related plans to prevent from social injuries such as begging, labor and street children, homeless people and performing donation and harm reduction plan.

Identifying and collecting labor and street children, beggars, homelessness, sex workers, addicted persons form

Holding breakfast occasion in wild life museum of 'Dar Abad' for orphan children of welfare and Imam

16. Holiday educational courses of anonymous narcotics association (NA) in order to deliver message and aid of one addicted to another addicted.

17. Making required effort to establish DIC centers for addicted men and women, sex workers and post positive club for people living with HIV (PLWHIV)
18. Development of cultural spaces in region1 parish houses (11 cases established and 4 cases are establishing, and the amphitheater are 7 cases.)
19. Establishment of hotline for counseling and assistant request by welfare organization.

Analyzing and evaluating emotional problems of children via painting in different occasions.

20. Establishing individual counseling booths in joy system in region1 parks and health houses.
21. Analyzing and evaluating emotional problems of children via painting in different occasions.
22. Making required effort to determine domestic supporters (neighbors)

Counseling in order to reduce high risk behaviors and reduce depression and mental disorders.

Holding opening ceremony of Kimia travelers in order to train peer elderly in safe community program and holding

23. Trying with the aim of creating the committee for helping mental health of society and prevention of suicide.
24. Holding opening ceremony of Kimia travelers in order to train peer elderly in safe community program and holding pilgrimage re-creative tours for elderly and training them during travel about safe community, especially for prevention from violence and suicide.
25. Region1 urban affairs and green space deputy considering Islamic observances as wall painting, embossed drawing, permanent lighting and installation of statue to promote citizen's mental health.

manent lighting and installation of atue to promote citizen's mental healthy

26. Performing pilot plan of training safe and healthy life style to high school adolescents of district2 of region 1 in March of 2010 by presence of Health department of Tehran Municipality, reproductive health and rights association and the union of Islamic Associations.

Creating the first park free from Tobacco in Iran and Middle East

Creating the first park free from Tobacco in Iran and Middle East

27. Creating the first park free from Tobacco in Iran and Middle East by cooperating with all organizations with the main to prevention from high- risk behaviors (in Qeytarieh Park).
28. Inviting some organizations such as welfare, Education, Assistance committee. Health ministry and the police in order to sign the agreement of cooperation for receiving statistics related to injury arising from violence and planning for promotion of safety and prevention from violence and high risk behaviors.

Inviting some organizations to sign the agreement of cooperation for receiving statistics related to injury

29. Establishing cultural- sport complexes to increase women empowerments and occupation.
30. Holding the conference on ‘safe community, the role of fitness and aerobic on Prevention from addiction and AIDS’ by cooperating with federation of fitness and aerobic, CDC of health ministry, UNAIDS and UNODC organization in region 1 for the first time in Iran by different subjects such as:
    - Spiritual and prevention from high- risk behaviors.
    - Correct and incorrect believes about HIV, addiction and high- risk behaviors.

- Safe community and the role of joy and sport in prevention from addiction and AIDS.

Holding the conference on 'safe community, the role of fitness and aerobic on Prevention from addiction

Holding the conference on 'safe community, the role of fitness and aerobic on Prevention from addiction

31. Holding ceremony by presence of tutors, actors, athletes and famous persons in schools , university , Mosques, parks, cultural halls by offering messages of ' prevention from high-risk behaviors and violence.

Indicator No5: Evaluation majors to assess activities and the effect of changes:

Supervision, Monitoring and evaluation are the main important factors in the safe community models , so we can consider these issues during the implementation in all of our activities. According the analysis of data is under indicator four we have some points to discuss in the below chapter:

1 - The most incidence rate of injuries and accidents on the basis of the circumstances at region1 in 2009 is as following factors individual, working with tools and environment factors.

2 – The most of incidence rate of injuries and accidents on the basis of the circumstances at region1 in 2009 is as following factors; penetrate trauma, burning with flame ,following, non-penetrating trauma and vehicles.

3 – The most incidence rate of injuries and accidents on the basis of the time at region1 in 2009 is as following summer, spring and winter.

4 – The most incidence rate of injuries and accidents on the basis of damaging factors at region1 in 2009 is road transportation.

5 - The data shows that the most accidents at region1 in 2009 is as following factors, pedestrian, engine driver vehicles, light vehicle and non-engine driven vehicle.

6 – The data shows that the most condition of injured person at region1 in 2009 is as following factors, driver and pedestrian.

7 – The data shows that the most injuries and accident on the basis of fall at region1 in 2009 is as following recognized factors stairs, channel, puddle, well, and trees.

8 – The data shows that the most of injuries and accident on the basis of non-penetrating trauma at region1 in 2009 is as following factors touching a person, touching things or animals and the most of injuries and accident on the basis of penetrating factor at region1 in 2009 is cutting with sharp substance.

9 – The data shows that the most of injuries and accidents on the basis of electric shock/ray at region1 in 2009 is as following factors, electric current and welding.

10 – The data shows that we didn't have any cases of the injuries and accidents due to drawing, suffocating and suicide at region1 in 2009.

11 – The data shows that the amount of poisoning and biting of animals is low only one case of animal's sting and two other cases of poisoning is reported at region1 in 2009

12 – The data shows that the most of injuries and accidents on the basis of burning factors at region1 in 2009 is as following factors, touching hot liquids, steam or gas and hot things.

13- The data shows that the most of effective factors on the incidence rate of injuries and accidents leading death – bedridden on the basis of kind of accident at region1 in 2009 is as following vehicles, falling, penetrating trauma, non- penetrating trauma, poisoning and sting of animals

14- The data shows that the most of incidence rate of injuries and accidents on the basis of the place at region1 in 2009 is as following home, street/ highway, sport place, industrial and constructional place,

commercial place and park/ re-creative place, But the most of effective factors on the incidence rate of injuries and accidents leading death- bed ridden on the basis of place at region1 in 2009 is as following, street/ highway, home, industrial place, constructional workshop, and sport place.

15- The data shows that the most of effective factors on the incidence rate of injuries and accidents on the basis of occupation of injured person at region1 in 2009 is as following free job, student, and house wife.

16- The data shows that the most of effective factors on the incidence rate of injuries and accident leading death- bedridden on the basis of age at region1 in 2009 is above 45 years old and below 10 years old.

17- the most incidence rate of injuries and accidents on the basis of age of injured person at region1 in 2009 is as following factors, Falling and non- penetrating factors at below age 10 years old, non-penetrating and fall factors at age 11-16 years old, non-penetrating and penetrating factors at age 17-25 years old, penetrating and burning with flame factors at above age 26 years old

18 – The data shows that the most of effective factors on the incidence rate of injuries and accidents on the basis of sex of injured person at region1 in 2009 is as following factors penetrating, burning with flame in women and non-penetrating, falling in men.

19- The data shows that the most of effective factors on the incidence rate of injuries and accidents on the basis of occupation of injured person at region1 in 2009 is as following, penetrating factor at military, penetrating and burning with flame at laboring, non–penetrating factor at administrative, and penetrating and burning with flame in house wife.

According the collecting data of injuries and accidents at region1 in 2009, experiences of other regions and special needs of region1, specialized work groups created in SCSC region1. The data are in the below table show that the activities of all specialized workgroups had the effective roles for reducing of injuries and accidents at region1.

Table 16- Comparative data of injuries and accidents at Region1, 2008 - 2009

No	Subject	Number of accidents	
		Year 2009	Year 2010
1	Emergency cases	3325	2972
2	Falling	301	201
3	Driving accidents	2280	2235
4	Mental and behavior disorders	287	251
5	Trauma except accidents	1455	1049
6	Injury due to load	19	18
7	Injury due to ceremonies	49	8
8	Injury of burning	47	38
9	Injury of Occupational and industrial	21	6
10	Injury due to stroke and wound (bullet, knife)	314	261

Indicator No6

National and International Commitments

- **Being a member of steering, Scientific and administrative committees in the national and international safe community conferences and workshops**
    - The sixteenth international safe community conference in Tehran (2007)
    - The first national conference of safe community
    - The second national conference of safe community
    - The second and third conference of mountain
    - The first educational workshop of safe community guidance in region1
    - Technical and engineering committee of safe community policy council in Tehran.
- **The participation of the members of region1 safe community steering committee in national and international conferences concluding:**
    - The sixteenth international safe community conference in Tehran (2007)
    - The first national conference of safe community
    - The second national conference of safe community
    - The second and third conference of mountain
    - The relation between Industry and resident conference
    - The first educational and workshop of safe community guidance in region1
- **Presenting articles, posters and lectures of the members of region1 safe community steering committee in :**
    - The sixteenth international safe community conference in Tehran (2007)
    - The first national conference of safe community
    - The second national conference of safe community
- **The partnership of the members of region1 safe community steering committee members in:**
    - Holding of the sixteenth international safe community conference in Tehran (2007)
    - Holding of the first national conference of safe community
    - Holding of the second national conference of safe community
    - Holding 'The last safe Wednesday of the year' conference (2009)
    - Holding educational meeting of 'metropolitans safe community Basis'
    - Holding Joining ceremony of Kashmar township and region 22 of Tehran to International safe communities Network in years 2006 and 2007
    - Holding Joining ceremony of regions 4, 5, 10, 20 and 21 of Tehran to International safe communities Network in year 2010.

- **Holding conferences and workshops in region1**
    - The first conference of safe community in region1 (2009)
    - The first educational and workshop of safe community guidance in region1
